PROFESSIONAL SUMMARY

Chemist with a robust background in analytical chemistry, laboratory quality assurance, and chemical compliance for industrial food and pharmaceutical manufacturing. Expertise in HPLC/GC instrumentation, method validation, and GMP accreditation standards.

CORE COMPETENCIES & TECHNICAL SKILLS

HPLC & GC Instrumentation

ISO/IEC 17025 Accreditation

Method Validation

GMP & HACCP Protocols

Root Cause Investigation

Chemical Assay & Analysis

Stability Testing

PROFESSIONAL EXPERIENCE

Quality Assurance Chemist
Nestle Manufacturing Malaysia, Chembong

May 2019 – April 2023

- Conducted chemical and physical testing of raw materials and finished food products using advanced HPLC and GC instrumentation.
- Maintained ISO/IEC 17025 laboratory accreditation standards and managed comprehensive equipment calibration logs.
- Investigated out-of-specification results and implemented root cause analysis corrective actions in manufacturing lines.

Research Chemist
Duopharma Biotech, Bangi

June 2017 – April 2019

- Performed rigorous method validation and stability testing for pharmaceutical formulations under strict GMP guidelines.
- Prepared comprehensive technical validation reports and regulatory documentation for national health authority submissions.

EDUCATION

Bachelor of Science (Hons) in Chemistry
Universiti Kebangsaan Malaysia (UKM), Bangi

Graduated: June 2017
