

CHOW MUN WAH

Penang, Malaysia • chow.munwah@email.com • +60167891234 • linkedin.com/in/chow-munwah-data

PROFESSIONAL SUMMARY

Data Analyst specializing in business intelligence, predictive statistical modeling, and large-scale data pipeline management within the technology and semiconductor manufacturing sectors. Adept at transforming complex datasets into clear, actionable executive insights.

CORE COMPETENCIES & TECHNICAL SKILLS

Python (Pandas, NumPy)

SQL & Database Design

Microsoft Power BI

Statistical Modeling

ETL Data Pipelines

Excel VBA Automation

Tableau

PROFESSIONAL EXPERIENCE

Data Analyst

March 2020 – February 2023

Intel Malaysia, Penang

- Built automated Power BI dashboards and robust SQL data models to track semiconductor manufacturing yield and defect rates.
- Performed exploratory data analysis using Python and Pandas to identify supply chain bottlenecks and process variances.
- Collaborated with cross-functional engineering teams to present quantitative insights derived from operational metrics.

Junior Data Analyst

July 2018 – February 2020

Keysight Technologies, Penang

- Cleaned, transformed, and validated large volumes of operational test data extracted from automated equipment databases.
- Automated weekly reporting tasks using Python scripts and Excel VBA macros, reducing manual work by 10 hours weekly.

EDUCATION

Bachelor of Science in Statistics

Graduated: June 2018

Universiti Sains Malaysia (USM), Penang
