

SITI NUR AISYAH BINTI ABDULLAH

Kuala Lumpur, Malaysia • siti.aisyah@email.com • +60123456789 • github.com/siti-aisyah-dev

PROFESSIONAL SUMMARY

Software Developer with over 6 years of experience in full-stack web application development, database management, and agile software engineering practices. Proven track record in building scalable microservices, optimizing database performance, and collaborating in cross-functional technical teams.

CORE COMPETENCIES & TECHNICAL SKILLS

Java Spring Boot

Angular & TypeScript

PostgreSQL & MySQL

RESTful APIs

Git & CI/CD Pipelines

Docker & Kubernetes

Agile / Scrum

Unit Testing (JUnit)

PROFESSIONAL EXPERIENCE

Senior Software Developer

Axiata Digital Labs, Kuala Lumpur

January 2021 – December 2022

- Led backend microservices development using Java Spring Boot and PostgreSQL for high-traffic telecommunication platforms.
- Mentored junior programmers on code quality standards, unit testing practices, and CI/CD deployment pipelines.
- Optimized critical database queries and indexing strategies to reduce application response time by 25 percent.

Software Developer

Fusionex International, Petaling Jaya

June 2017 – December 2020

- Developed responsive front-end UI components using Angular and TypeScript for enterprise big data analytics dashboards.
- Collaborated closely with product owners and QA engineers to define technical specifications and resolve production bugs.
- Integrated secure REST APIs and managed data synchronization across distributed server nodes.

EDUCATION

Bachelor of Computer Science (Software Engineering)

Universiti Malaya, Kuala Lumpur

Graduated: June 2017
